

BatteryWorld®

DID YOU KNOW?

- Batteries decompose and the chemicals seep into the ground contributing to soil and water pollution
- The chemicals endanger our wildlife and fish.
- Australian's throw out over 8,000 tonnes of used batteries each year.
- 97% of households put old batteries in their rubbish or wheelie bin.
- **Battery components can be recycled**

WHAT CAN YOU DO TO HELP?

- Recycle your batteries
- Use 'rechargeable' batteries. They can be used up to 1000 times, so there are less to throw out.
- When your batteries go flat, bring them into store and place them in the purple battery recycling bin.

ENCOURAGE YOUR SCHOOL TO PARTICIPATE IN OUR BATTERY RECYCLING PROGRAM

THIS INITIATIVE IS PROUDLY SUPPORTED BY

**Battery World Rocklea
26 Sherwood Road Rocklea**

WHAT CAN BE RECYCLED?

To name just a few, you can recycle batteries from:
